

Если научные периодические издания, то есть текущие номера которых или их переводные версии на иностранном языке, удовлетворяют всем необходимым международным критериям оценки, то они входят в хотя бы одну из систем цитирования (библиографических баз) Web of Science, Scopus, Web of Knowledge, Astrophysics, PubMed, Mathematics, Chemical Abstracts, Springer, Agris.

# 1. Web of Science включающая в себя базы

## 1.1. Science Citation Index Expanded (база по естественным наукам).

Перечень журналов, включенных в его базу приведен по адресу:

<http://scientific.thomsonreuters.com/cgi-bin/jrnlst/jlresults.cgi?PC=D>,

The screenshot shows the 'SCIENCE CITATION INDEX EXPANDED - JOURNAL LIST' page. It features a search bar at the top with the text 'Total journals: 6592'. Below the search bar, there is a list of journals. The first journal listed is 'B-ENT', which is a quarterly journal (ISSN: 0301-6487) published by the Royal Belgian Soc Ear, Nose, Throat, Head & Neck Surgery, PO Box 1346, Leuven, Belgium, 30005. The second journal listed is 'BALKAN JOURNAL OF GEOMETRY AND ITS APPLICATIONS', a bi-monthly journal (ISSN: 1224-2780) published by the Dalhousie Soc Geometers, Univ Politehnica Bucharest, Fac Appl Sci, Dept Math I, Splaia, 8 Decembrie 1918, Bucharest, Romania, 060042. The page also includes a '2011 JOURNAL CITATION REPORTS' banner and a 'THIS DAY IN SCIENCE' section.

<http://www.docstoc.com/docs/2608992/SCIENCE-CITATION-INDEX-EXPANDED-JOURNAL-LIST-Total-journals-6592>,  
Найти другие возможно более новые списки журналов можно, например, в поисковой строке:  
<http://www.google.ru/>, введя ключевую фразу для поиска - "Science Citation Index Expanded".

## 1.2. Social Sciences Citation Index (база по социальным наукам):

[http://thomsonreuters.com/products\\_services/science/science\\_products/a-z/social\\_sciences\\_citation\\_index](http://thomsonreuters.com/products_services/science/science_products/a-z/social_sciences_citation_index);

## 1.3. Arts and Humanities Citation Index (база по искусству и гуманитарным наукам). Перечень цитируемых журналов можно найти по адресу:

<http://science.thomsonreuters.com/cgi-bin/jrnlst/jlresults.cgi?PC=H>

The screenshot shows the Thomson Reuters website with a press release titled 'FROM DRUGS TO WHEELCHAIRS: WHITE PAPER SOUNDS ALARM ABOUT GROWING PRESENCE OF ORGANIZED CRIME IN HEALTHCARE FRAUD'. The press release is dated 01 JAN 2012. The text of the press release discusses the growing presence of organized crime groups in healthcare fraud, the role of technology in fighting this crime, and the release of a white paper by Thomson Reuters. The white paper offers an overview of the growing problem of healthcare fraud in the United States, the cost of which is estimated by Thomson Reuters to be \$155 billion annually, and the disturbing trend of organized crime groups and gangs in perpetrating complex schemes to defraud Medicare and Medicaid. The free, in-depth white paper, titled 'From Drugs to Wheelchairs: New Technology Fights the Growing Menace of Organized Crime in Healthcare Fraud,' offers details about the fight against fraud being mounted by government agencies and federal, state and local law enforcement. It details their use of sophisticated technology such as data mining and predictive analysis using search tools, like the Thomson Reuters product CLEAR for Healthcare Fraud Investigators, to stop organized crime.

## 2. Scopus

**Scopus** включает в себя цитируемые ссылки на работы из более 17 000 наименований научно-технических и медицинских журналов примерно 4000 международных издательств.

(<http://www.scopus.com/home.url>), [http://www.elsevier.ru/products/product\\_scopus/](http://www.elsevier.ru/products/product_scopus/),  
узнать фигурирует ли Ваша работа в данной системе цитирования Вы можете по адресу:  
<http://www.scopus.com/search/form/authorFreeLookup.url>.

SCOPUS – платная система, но можно воспользоваться бесплатным тестовым доступом в течение 1 месяца, предварительно зарегистрировавшись. Возможности поиска авторов и ограниченного просмотра их профилей доступны без абонентской подписки на базу данных Scopus средствами Scopus Author Preview.

Научные ресурсы, опубликованные после 1996 г., индексируются в базе данных Scopus вместе со списками пристатейных библиографий. Цитируемость в базе данных подсчитывается путем автоматизированного анализа содержания этих списков. Таким образом, в Scopus подсчитывается количество ссылок на все проиндексированные ресурсы, но только в ресурсах, опубликованных с 1996 г.

В отличие от базы данных Web of Knowledge Института научной информации США, в Scopus не используется понятие импакт-факторов, зато очень широко применяется индекс Хирша.

### 3. [ISI Web of Knowledge](#)

**Web of Knowledge** (платный сервис индексирования цитирований и поиска научных статей) - <http://wok.mimas.ac.uk/>. В работе визуально представлены направления наук, реферируемые данным сервисом. Web of Knowledge в большей степени представляет работы по медицине, биологии, психологии, экономике, физике, астрономии. В меньшей степени – по математике и компьютерным наукам.

Свободный доступ отсутствует.

The screenshot shows the ISI Web of Knowledge website. At the top left, a green banner reads "ISI WEB OF KNOWLEDGE™" and "is proud to celebrate 10 years of partnership with ISC". The Thomson Reuters logo is in the top right. A navigation bar contains "Site Map" and "Contact Helpdesk". On the left, a vertical menu lists "Home", "News", "About", "Support", "FAQ", and "Feedback". Below this is a "Master Journal List" section with a search box and instructions: "Search for journals covered in the Web of Knowledge (includes all journal titles covered in TR products). Note - not a search of the databases." The main content area features "Latest news:" with two items: "12 November - WoSEC (Web of Science Enhancement Committee) meeting" and "November \* Free \* UK Regional Courses, Web of Knowledge Update Training - [BOOK NOW!](#)". A section titled "Web of Knowledge Service for UK Education" explains that it provides a single route to all Thomson Reuters products subscribed to by the institution, and includes a "Subscribers List" link. A red button says "Click here to access WEB OF KNOWLEDGE". Below this, it says "Problems with access? Try this [alternative link](#). Institution name, username and password required. Please note you may need to try alternative options." A yellow banner states "Service Information - Service working normally." and a red button says "Click here to access Journal Citation Reports". A link says "Connect to the Journal Citation Reports." At the bottom, it asks users to send enquiries to [wok@mimas.ac.uk](mailto:wok@mimas.ac.uk) or use a [support form](#).

## 4. ISI PubMed

**ISI PubMed** (<http://www.ncbi.nlm.nih.gov/pubmed/>) – международная база цитирования медицинских и биологических публикаций. Поиск статей по базе ISI PubMed в свободном доступе. Получение полнотекстовых версий статей производится на частично платной основе.

Международная библиографическая база «ISI PubMed» разрабатывает числовые показатели, отражающие научную значимость входящих в неё журналов. Для каждого журнала, входящего в определенную группу дисциплин рассчитывается импакт-фактор, показывающий количество ссылок, приходящихся на одну статью.

База данных была разработана Национальным центром биотехнологической информации (NCBI). PubMed является бесплатной версией базы данных MEDLINE. PubMed впервые был представлен в январе 1996 года.

Каждой статье присваивается идентификационный номер PubMed-ID (PMID). Например: PMID:15977431 [PubMed - indexed for MEDLINE]

The screenshot shows the PubMed interface. At the top, there's a navigation bar with 'NCBI Resources' and 'How To'. Below it, the PubMed logo and a search bar are visible. The main content area displays the following information:

- Display Settings:** Abstract
- Journal:** Zh Obshch Biol, 2005 May-Jun;61(3):251-7.
- Title:** [Light absorption by carotenoid peridinin in zooxanthellae cell and setting down of hermatypic coral to depth].
- Author:** [Article in Russian] Lelstina VA, Popova LI.
- Abstract:** Carotenoid peridinin absorbs ocean light which could penetrate deep into the water. Absolute and relative contents of symbiotic dinoflagellatae zooxanthellae are increased with depth of habitat of hermatypic corals. To estimate whether the presence of peridinin in corals is chromatic adaptation or not, the absorbance of solar radiation by different amounts of peridinin and chlorophyll in natica zooxanthellae cells was evaluated. Calculations have shown that at the great depths the peridinin absorbance corresponds to 42% of total cell absorbance and that the increase of light absorbance correlating with changes of its spectral characteristics is entirely determined by presence of this carotenoid. The increase of amount of peridinin in cell is as much important as important the increase of all other pigments taken together. However, at the same time selective and preferential accumulation of peridinin and the change of its native state in the limits naturally occurred in zooxanthellae cells have only low impact on the light absorbance. The presence of peridinin could be considered as manifestation of chromatic adaptation of organism. The comparison of light absorption by zooxanthellae with different content of peridinin (or without peridinin) reveals that this pigment expands the habitat of hermatypic corals in ocean waters at 8-17 meters into the deep.
- PMID:** 15977431 [PubMed - indexed for MEDLINE]
- Links:** Publication Types, MeSH Terms, Substances

On the right side, there are sections for 'Save Items' (Add to Favorites), 'Related citations in PubMed' (listing several related articles), 'Related information' (Related Citations, Compound (MeSH Keyword), Substance (MeSH Keyword)), and 'Recent activity'.

PubMed список журналов можно найти на страничках: <http://www.ncbi.nlm.nih.gov/pubmed/> и [ftp://ftp.ncbi.nih.gov/pubmed/J\\_Medline.txt](ftp://ftp.ncbi.nih.gov/pubmed/J_Medline.txt).

## 5. Chemical Abstracts

**Chemical Abstracts** (<http://www.cas.org/products/print/ca/index.html>). По адресу <http://pubs.acs.org/?cookieSet=1> Вы можете найти полный перечень журналов Американского химического Общества с платными версиями всех статей и список неамериканских цитируемых журналов имеющих свою англоязычную версию.

The screenshot displays the ACS Publications website interface. At the top, there is a navigation bar with 'ACS Journals C&EN CAS' and a search bar containing 'Lelevkin'. Below the navigation bar, the main content area is divided into several sections: 'ACS Journals in the News' featuring a 'Publishing Your Research 101 Video Series', 'C&EN Latest News' with articles like 'Barrel-Like Molecules Could Lead To Cheaper SEBS' and 'Old Tuberculosis Treatment Performs As Predicted', and an advertisement for 'Free Ground Shipping'. The search results section shows 'Showing 1-20 of 30949' results, with 'Page: 1' selected. The first result is for 'CHEMISTRY' in 'Anal. Chem.', 1980, 52 (12), pp 1340A-1340A, with a 'First Page' link and options for 'Hi-Res PDF [1100K]' and 'PDF w/ Links [1101K]'. The page also includes a 'Select All' checkbox and buttons for 'View Abstracts' and 'Download Citations'.

## 6. Agris

**Agris** (International System for Agricultural Science and Technology) – международная информационная система по сельскому хозяйству и технологии (<http://www.fao.org/agris/>).

The screenshot shows the AGRIS search page. At the top, it says "AGRIS :: International Information System for the Agricultural Sciences and Technology". Below that, there's a search bar with "agriculture" entered. The search results show "480985 results". There are navigation links for "Search", "Advanced Search", and "Search Categories". On the right, there's a sidebar with "Agrovoc search" and "Related News". The main content area shows "Related keywords: varieties (14127), crop yield (12369), agriculture (15298), egypt (9677), growth (12440)". Below that, it says "Your search found 480985 results." and "RESULTS: 1-10 11-20 21-30 31-40 41-50 51-60 Next > [Last]".

### [SAO/NASA ADS Astronomy Abstract Service](#) Journal/Volume/Page Query Form

This page allows you to find articles from journal references by year, journal, volume, and/or page. Each of the fields is optional. The query will return all references that match the input parameters.

Journal Name/Code:

Year:  Volume:  Page:

Retrieve  abstracts starting with number

The entries in these fields can contain wildcard characters (?). For instance 2771 in the page field finds pages 2001, 2011, 2101, etc. The Journal Codes are available in the [List of Bibliographic Code Abbreviations](#). Each field is optional. If any field is not specified, all matching references will be returned.

#### Reference Query

Enter reference string:

Retrieve  abstracts starting with number

The reference string can be of [general format](#):

1. author [author ...] year [journal abbreviation] (eg Smith Jones 1999 ApJ)
2. author [author ...] et al year [journal abbreviation] (eg Smith et al 2001)
3. author [author ...] and author year [journal abbreviation] (eg Smith Miller and Jones 1998)
4. full reference string from a journal citation (eg Smith et al 2000, ARA 362, no. 333-341)

## 9. Springer

**Springer** перечень всех 2010 журналов (на дату 2009.12.01) учитываемых данной системой цитирования можно найти в верхней строке поиска по адресу: <http://www.springer.com/?SGWID=5-102-0-0-0>

The image shows a screenshot of the Springer website's search interface. At the top, there is a blue header with the Springer logo and navigation links: HOME, MY SPRINGER, SUBJECTS, SERVICES, IMPRINTS & PUBLISHERS, and ABOUT US. A search bar is located in the top right corner. Below the header, there is a search results area with a search bar and a 'GO' button. The search results area is divided into several sections: 'Search by' with fields for 'ISBN/EISSN', 'Author/Editor', 'Title', and 'Series'; 'Content Type' with checkboxes for 'All', 'Books', 'Book series', 'Electronic products', 'Imprints', 'Journals', 'Online available', 'Online Content (PDFs)', 'Springer reference', 'Textbooks', and 'eJournals'; and 'Limit search to one or more topics' with checkboxes for various subjects like 'Education & Language', 'Energy', 'Engineering', 'Environmental Sciences', 'Food Science & Nutrition', 'Mathematics', 'Medicine', 'Philosophy', 'Physics', and 'Psychology'. On the right side, there is a 'RECENT SEARCHES' section and a 'FEEDBACK' section with a rating scale and a text input field for additional comments.
